Engineering - Camila Padron and Kenyon Redler

- **Mandatory Safety Test to Operate Machinery:** Team members are required to take a metals shop safety test before they are allowed to operate any machinery. If you are taking a metal shop class this Fall semester you will have already taken this test and aren't required to take it through the robotics team. If you aren't taking a metals shop class this semester and wish to be involved in the

engineering branch this year you must come in Wednesday to take the test. We will provide training on these days as well, there is no previous studying you need. If you missed the safety test last week, please let us know as soon as possible. We'll arrange for you to take it if you want to join us in the shop this year.

- **When:** Wednesday after school
- **Where:** Metal Shop (Room 111)
- **Engineering Design Classes:** We'll continue manufacturing and assembling parts this week. Even if you weren't here over the summer, feel free to drop by and we'll catch you up!
 - **Where:** Metal Shop (Room 111)
 - **When:** Tuesday 4:00pm-6:00pm (After Weekly Meeting) Wednesday 2:25-5:00 pm
- **Programming Classes:** Learn how to program a robot with Java and work your way up to program large-scale FRC competition robots. Anyone can join with no prior experience required!
 - **Where:** Mosaic Cafe
 - **When:** Tuesday 4:00pm-6:00pm (After Weekly Meeting) & Thursday from 3:30-5 pm
- **Rookie Recap:**
- **Programming:** Tuesday 4:00pm-5:00pm in the Mosaic
- **Engineering:** Wednesday 2:25pm-3:25pm in Metal Shop(Room 111)
- **Description:** In the Engineering and Programming Rookie Recap students will come to get an overview of what the branch is and what you will be able to do and learn throughout the year.
